"Provided, That hereafter the Board of Visitors to the Military Academy shall consist of five members of the Committee on Military Affairs of the Senate and seven members of the Committee on Military Affairs of the House of Representatives, to be appointed by the respective chairmen thereof, who shall annually visit the Military Academy on such date or dates as may be fixed by the chairmen of the said committees; and the Superintendent of the academy and the members of the Board of Visitors shall be notified of such date by the chairmen of the said committees, acting jointly, at least fifteen days before the meeting. The expenses of the members of the board shall be their actual expenses while engaged upon their duties as members of said board, and their actual expenses for travel by the shortest mail routes: Provided further. That so much of sections thirteen hundred and twenty-seven, thirteen hundred and twenty-seven, thirteen hundred and twenty-siep, that is hereby repealed."—Act of Congress approved March 4, 1909.

HISTORICAL SKETCH.

The United States Military Academy is a school for the practical and theoretical training of cadets for the military service. Upon completing its course satisfactorily, cadets are eligible for promotion and commission as second lieutenants in any arm or corps of the Army the duties of which they have been judged competent to perform.

The supervision and charge of the Academy are in the War Department under such officer or officers as the Secretary of War may assign to that duty (section 1331, Revised Statutes). In conformity with the provisions of this section, the Chief of Staff has been, by direction of the Secretary, charged with the supervision of matters in the War Department pertaining to the Academy.

The occupation of West Point as a military post took place on January 20, 1778, and has been continuous since that date. The earliest proposal for a military school for the United States was that of Brigadier General Henry Knox, Chief of Artillery (May, 1776). His plans were seconded by Colonel Alexander Hamilton and approved by General Washington, though they were not adopted in the form suggested before 1802, other counsels having temporarily prevailed.

On October 1, 1776, Congress passed a resolution appointing a committee to prepare a plan for "A Military Academy at the Army." The result was the resolution of June 20, 1777, providing for a Corps of Invalids "to serve as a military school for young gentlemen previous to their being appointed to marching regiments." The Invalid Corps was organized in July, 1777, and in 1781, at the request of Washington, was marched from Philadelphia to form part of the garrison at West Point, where an engineer school, a laboratory, and a library had already been established in three separate buildings.

On March 30, 1779, the Board of War adopted regulations for the Corps of Engineers and for the Sappers and Miners. These were promulgated in orders, July 30, 1779, by General Washington and provided for a plan of instruction to be carried into effect after approval by the Board and by the General-in-Chief. The plan contemplated lectures, by engineer officers, on fortification, mining, reconnaissance, encampments and the like. Practical experiments in gunnery were conducted at West Point as early as February, 1780. In 1783, after the cessation of hostilities, Washington, having been called upon for his views as to the peace establishment, laid the matter of a Military Academy before his officers at Newburg. He referred to it again in his message on December 3, 1793. The law of May 9, 1794, authorized the organization of a Corps of Artillerists and Engineers with two cadets to a company, thus creating the new grade of "cadet" in the American Army. A school for the Artillerists and Engineers, and for the cadets attached to the Corps, was established, on the recommendation of Washington, by order, at West Point in 1794. The destruction of its buildings by fire, in 1796, caused its suspension. In July, 1801, the Secretary of War directed that all the cadets of the Corps of Artillerists should report at West Point for instruction, and in September, a school was opened with four army officers and a civilian as administrators and instructors.

An Act of Congress approved March 16, 1802, authorized the President to organize and establish a Corps of Engineers to consist of five officers and ten cadets, and provided that it should be stationed at West Point, in the State of New York, and should constitute a Military Academy. The Academy with ten cadets present, was formally opened July 4, the year of the Act.

Acts of Congress, in 1802 and 1808, authorized 40 cadets from the Artillery, 100 from the Infantry, 16 from the Dragoons, and 20 from the Riflemen; few of these were appointed, and no provision was made for them at the Academy. In 1810, the Academy was deprived of nearly all means of instruction, and officers and cadets had difficulty in obtaining their pay. During most of the year 1811, and a part of 1812, although war was imminent, academic instruction was practically abandoned. In March, 1812, the Academy was without a single instructor. Up to and including this time, 88 cadets had been graduated; they had entered without mental or physical examination, at all ages from 12 to 34, and at various times during the year.

By Act of Congress of April 29, 1812, the Academy was reorganized. The provisions of this Act have furnished the general principles upon which the Military Academy has since been conducted and controlled; a more adequate corps of professors was authorized; a maximum of 250 cadets was fixed; and the age and the mental requisites for admission were prescribed.

In 1817, under the provisions of the Act of 1812, and the able superintendency of Major Sylvanus Thayer, Corps of Engineers, the present era in the Academy's history opened.

Until 1843, a prescribed residence was not a legal qualification for appointment, but the selection of one cadet from each Congressional district had grown to be customary. In this year the custom became the law, Congress prescribing that the Corps of Cadets should consist of one from each Congressional district, one from each Territory, one from the District of Columbia, and ten from the United States at large, to be appointed by the President.

By Acts of Congress approved June 6, 1900, June 28, 1902, March 3, 1903, and May 28, 1908, the Corps of Cadets as now constituted consists of one from each Congressional district, one from each Territory, one from the District of Columbia, one from Porto Rico, two from each State at large, and forty from the United States at large, all to be appointed by the President. Those cadets appointed from States or Territories must be actual residents of the Congressional or Territorial districts, or of the District of Columbia, or of the States, respectively, from which they are appointed.* Four Filipinos, one for each class, are authorized to receive instruction as cadets, to be eligible on graduation only to commissions in the Philippine Scouts. Under these Acts, and under the apportionment of Members of Congress according to the 12th Census, the maximum number of cadets is 533.

The total number of graduates from 1802 to 1912 inclusive is 5112.

^{*}Under Act of Congress approved April 19, 1910, the law, however, provides that for six years from July 1, 1910, whenever any cadet shall have finished three years of his course at the Academy his successor may be admitted.

COMMENDATORY REFERENCES TO THE ACADEMY.

"I have duly received your letter of the 28th ultimo, enclosing a copy of what you had written to the Secretary of War, on the subject of a Military Academy.

The establishment of an Institution of this kind, upon a respectable and extensive basis, has ever been considered by me as an object of primary importance to this country; and while I was in the Chair of Government, I omitted no proper opportunity of recommending it, in my public speeches and otherways, to the attention of the Legislature. But I never undertook to go into a detail of the organization of such an academy; leaving this task to others whose pursuits in the paths of science, and attention to the arrangements of such institutions, had better qualified them for the execution of it. For the same reason I must now decline making any observations on the details of your plan; and as it has already been submitted to the Secretary of War, through whom it would naturally be laid before Congress, it might be too late for alterations if any should be suggested.

I sincerely hope that the subject will meet with due attention, and that the reasons for its establishment which you have so clearly pointed out in your letter to the Secretary, will prevail upon the Legislature to place it upon a permanent and respectable footing."—George Washington. (Letter to Alexander Hamilton dated Mount Vernon, 12 December, 1799, two days before General Washington died.)

"I recommend to your fostering care, as one of our safest means of national defense, the Military Academy. This institution has already exercised the happiest influence upon the moral and intellectual character of our Army; and such of the graduates as from various causes may not pursue the profession of arms will be scarcely less useful as citizens. Their knowledge of the military art will be advantageously employed in the militia service, and in a measure secure to that class of troops the advantages which in this respect belong to standing armies." — Andrew Jackson. (Extract from his First Message to Congress December, 1829.)

"I give it as my fixed opinion, that but for our graduated cadets, the war between the United States and Mexico might, and probably would, have lasted some four or five years, with, in its first half, more defeats than victories falling to our share; whereas, in less than two campaigns, we conquered a great country and a peace, without the loss of a single battle or skirmish."—Winfield Scott. (Extract from a letter written by him July 25, 1860, to Lieutenant Ives, Secretary to the U.S. Military Academy Commission.)

"The foregoing considerations naturally bring to mind the Military Academy at West Point. I believe that the great service which it has rendered the country was never more conspicuous than it has been during the past two years. The faithful and efficient services of its graduates since the declaration of war with Spain have more than repaid the cost of the institution since its foundation. They have been too few in number and most heavily burdened."—Elihu Root. (Extract from his report as Secretary of War, June 30, 1899.)

"This institution has completed its first hundred years of life. During that century no other educational institution in the land has contributed so many names as West Point has contributed to the honor roll of the nation's greatest citizens."—Theodore Roosevelt. (Extract from his address at the Centennial Exercises U. S. Military Academy, June 11, 1902.)

27	THOMAS H. BARRY	Major General, U.S. Army	Aug.	31, 1910			

Note.—The selection of the Superintendents of the Military Academy was confined to the Corps of Engineers from the establishment of the Institution, March 15, 1802. till the passage of the law of July 13, 1865, which opened it to the entire Army. By the act of June 12, 1838, the local rank of Colonel was conferred upon the Superintendent.

1. Major Williams resigned June 29, 1805, on a point of command, and pending its settlement until April 19, 1805, when he again returned to service as Chief Engineer, no permanent Superintendent of the Military Academy was appointed, the command devolving upon the senior officer of the Corps of Engineers present for duty.

2. Bvt. Major P. G. T. Beauregard, Corps of Engineers, by order of John B. Floyd, Secretary of War, relieved Colonel Delafield, Jan. 23, 1861, from the superintendency of the Military Academy, but was himself displaced five days later, Jan. 28, 1861, by direction of the succeeding Secretary of War, Joseph Holt, the command again devolving upon Colonel Delafield.

United States Military Academy,

WEST POINT, NEW YORK.

Superintendent and Commandant.

MAJOR GENERAL THOMAS H. BARRY, U. S. Army.

Military Staff.

Captain ROBERT C. DAVIS, Infantry, Adjutant of the Military Academy and of the Post; Secretary of the Academic Board.

Major Bertram T. Clayton, Quartermaster, Quartermaster of the Military Academy and of the Post; Disbursing Officer; in charge of construction.

Captain Thomas W. Darrah, 27th Infantry, Treasurer of the Military Academy, and Quarter-master and Commissary for the Battalion of Cadets.

Lieutenant Colonel FRANK R. KEEFER, Medical Corps, Surgeon.

Departments of Instruction.

Professors whose service at the Academy, as Professor, exceeds ten years, have the rank, pay and allowances of Colonel, and all other Professors the rank, pay and allowances of Lieutenant Colonel. The Academic Departments are arranged in the order in which they were created by law.

DEPARTMENT OF TACTICS.

Lieutenant Colonel Fred W. Sladen (Major, 11th Infantry), Commandant of Cadets and Instructor of Artillery, Cavalry, and Infantry Tactics.

Captain Frank A. Wilcox, Infantry, Assistant to the Commandant of Cadets (Commanding 1st Battalion), Senior Assistant Instructor of Infantry Tactics.

Captain ISAAC NEWELL, 22d Infantry (Commanding 2d Battalion), Assistant Instructor of Tactics.

Captain Manus McCloskey, Field Artillery, Senior Assistant Instructor of Artillery Tactics.

Captain Rufus E. Longan, Infantry, Assistant Instructor of Tactics.

Captain Herman J. Koehler, U. S. Army, Master of the Sword. Instructor of Military Gymnastics and Physical Culture.

Captain JOHN D. LONG, 12th Cavalry, Senior Assistant Instructor of Cavalry Tactics.

Captain EDWARD H. DEARMOND, Field Artillery, Assistant Instructor of Tactics. Commanding Company of Cadets.

- 1st Lieutenant Herman Glade, 6th Infantry, Assistant Instructor of Tactics. Commanding Company of Cadets.
- 1st Lieutenant Ellery W. Niles, Coast Artillery Corps, Assistant Instructor of Tactics. Commanding Company of Cadets.
- 1st Lieutenant Philip Mathews, Coast Artillery Corps, Assistant Instructor of Tactics, Military Gymnastics and Physical Culture.

DEPARTMENT OF TACTICS (CONTINUED).

- 1st Lieutenant Edwin E. Pritchett, 1st Field Artillery, Assistant Instructor of Tactics.

 Commanding Company of Cadets.
- 1st Lieutenant Charles B. Moore, Infantry, Assistant Instructor of Tactics. Commanding Company of Cadets.
- 1st Lieutenant John K. HERR, Cavalry, Assistant Instructor of Tactics.
- 1st Lieutenant James S. Jones, 6th Cavalry, Assistant Instructor of Tactics. Commanding Company of Cadets.

Captain DEWITT C. JONES, Corps of Engineers.

1st Lieutenant William A. Johnson, Corps of Engineers,

1st Lieutenant EDMUND L. DALEY, Corps of Engineers,

Instructors.

DEPARTMENT OF NATURAL AND EXPERIMENTAL PHILOSOPHY.

Professor William B. Gordon, Colonel.

1st Lieutenant MATTHEW A. CROSS, Coast Artillery Corps, Assistant Professor.

1st Lieutenant Halsey Dunwoody, Coast Artillery Corps,

1st Lieutenant Geoffrey Bartlett, Coast Artillery Corps,

1st Lieutenant Jay L. Benedict, 14th Infantry,

Instructors.

DEPARTMENT OF MATHEMATICS.

Professor Charles P. Echols, Lieutenant Colonel.

Captain George B. Pillsbury, Corps of Engineers, Associate Professor.

Captain CHARLES R. PETTIS, Corps of Engineers. Assistant Professor.

Captain CHARLES R. ALLEY, Coast Artillery Corps,

1st Lieutenant George R. Allin, 4th Field Artillery,

1st Lieutenant William Bryden, 5th Field Artillery,

1st Lieutenant WILLIAM H. Dodds, Jr., 5th Field Artillery.

1st Lieutenant George M. Morrow, Jr., Coast Artillery Corps,

1st Lieutenant James W. RILEY, 2d Field Artillery,

1st Lieutenant Forrest E. Williford, Coast Artillery Corps,

1st Lieutenant Joseph A. Green, Coast Artillery Corps, 1st Lieutenant Harold W. Huntley, 3d Field Artillery,

1st Lieutenant William E. Shedd, Jr., Coast Artillery Corps.

1st Lieutenant ROYAL K. GREENE, Coast Artillery Corps,

1st Lieutenant Sanderford Jarman, Coast Artillery Corps,

1st Lieutenant Vaughn W. Cooper, 12th Cavalry,

1st Lieutenant George B. Hunter, 13th Cavalry,

1st Lieutenant Thomas W. Hammond, 6th Infantry,

1st Lieutenant Harvey D. Higley, 6th Field Artillery,

1st Lieutenant Donald J. McLachlan, 22d Infantry,

2d Lieutenant Frederick T. Dickman, 11th Cavalry,

2d Lieutenant Carl C. Oakes, 4th Infantry,

Instructors.

DEPARTMENT OF CHEMISTRY, MINERALOGY AND GEOLOGY.

Professor Wirt Robinson, Lieutenant Colonel.

Captain HENRY C. JEWETT, Corps of Engineers, Assistant Professor.

Captain Joseph A. BAER, 6th Cavalry,

Captain George W. Cocheu, Coast Artillery Corps,

Captain CLIFFORD JONES, Coast Artillery Corps,

1st Lieutenant Philip H. Worcester, Coast Artillery Corps,

1st Lieutenant ROBERT C. EDDY, Coast Artillery Corps,

1st Lieutenant CHARLES H. RICE, 6th Infantry,

Instructors.

DEPARTMENT OF DRAWING.

Professor Edwin R. Stuart, Lieutenant Colonel.

1st Lieutenant Pelham D. Glassford, 1st Field Artillery, Assistant Professor.

1st Lieutenant EDWIN E. PRITCHETT, 1st Field Artillery,

1st Lieutenant FREDERICK W. MANLEY, 4th Infantry,

1st Lieutenant OSCAR WESTOVER, 14th Infantry,

2d Lieutenant PAUL A. LARNED, 5th Infantry,

Instructors.

DEPARTMENT OF MODERN LANGUAGES.

Professor Cornélis DeW. Willcox, Lieutenant Colonel.

Captain James A. Ryan, Cavalry, Associate Professor.

Captain ORA E. Hunt, Infantry, Assistant Professor of the Spanish Language.

Captain Donald C. McDonald, Coast Artillery Corps, Assistant Professor of the French Language.

1st Lieutenant Thomas M. Spaulding, Coast Artillery Corps,

1st Lieutenant WEST C. JACOBS, Coast Artillery Corps,

1st Lieutenant Albert L. Loustalot, Coast Artillery Corps,

1st Lieutenant EDWARD M. ZELL, 7th Cavalry,

1st Lieutenant Stephen W. Winfree, Cavalry.

1st Lieutenant George G. Bartlett, 18th Infantry,

Captain Lewis S. Morey, 12th Cavalry,

1st Lieutenant Robert M. Campbell, Cavalry.

2d Lieutenant John W. Lang, 9th Infantry,

2d Lieutenant JOHN F. CURRY, 5th Infantry,

Instructors in French.

Instructors in Spanish.

JUSTIN M. CHENAL, } In French.

Jose M. Asensio, N. T. Quevedo,

In Spanish.

DEPARTMENT OF LAW.

Lieutenant Colonel Walter A. Bethel (Major and Judge Advocate), Professor.

(By assignment August 22, 1909, under Act of June 6, 1874.)

1st Lieutenant KERR T. RIGGS, Cavalry, Assistant Professor.

1st Lieutenant DAVID McC. McKell, Coast Artillery Corps,

2d Lieutenant Edwin C. McNeil, 14th Infantry,

Instructors.

DEPARTMENT OF PRACTICAL MILITARY ENGINEERING, MILITARY SIGNALING AND TELEGRAPHY.

Captain Gilbert A. Youngberg, Corps of Engineers, Instructor.
Captain William D. A. Anderson, Corps of Engineers, Senior Assistant Instructor.
1st Lieutenant Roger G. Powell, Corps of Engineers, Assistant Instructor.

DEPARTMENT OF ORDNANCE AND GUNNERY.

Lieutenant Colonel William H. Tschappat (Major, Ordnance Department), Professor. (By detail May 1, 1912, under act of March 2, 1907.)
 1st Lieutenant Richard Donovan, Coast Artillery Corps, Assistant Professor.

DEPARTMENT OF MILITARY HYGIENE.

Lieutenant Colonel Frank R. Keefer, Medical Corps, Professor. (By detail August 9, 1910, under Act of April 19, 1910.)

Captain George P. Perd, Medical Corps, Captain William R. Davis, Medical Corps, Captain Calvin D. Cowles, Jr., Medical Corps,

Instructors.

DEPARTMENT OF ENGLISH AND HISTORY.

Professor Lucius H. Holt, Lieutenant Colonel.

1st Lieutenant Benjamin H. L. Williams, Coast Artillery Corps, Assistant Professor.

1st Lieutenant EDWIN DEL. SMITH, Field Artillery,

1st Lieutenant Richard Donovan, Coast Artillery Corps,

1st Lieutenant ROBERT M. LYON, 11th Infantry,

1st Lieutenant HARRY L. HODGES, 1st Cavalry, 1st Lieutenant JOHN K. HERR, Cavalry,

1st Lieutenant EDMUND B. GREGORY, 14th Infantry,

1st Lieutenant MERBILL E. SPALDING, 17th Infantry,

1st Lieutenant CHARLES S. CAFFERY, 28th Infantry,

1st Lieutenant HENRY J. REILLY, 3d Cavalry.

1st Lieutenant Paul R. Manchester, 27th Infantry,

1st Lieutenant James J. O'HARA, Cavalry,

1st Lieutenant Alexander W. Chilton, 11th Infantry,

1st Lieutenant William A. Ganoe, 9th Infantry,

Instructors.

Officers on Duty at Teadquarters U. S. M. A.

Captain George H. Estes, Commissary.

Captain George VIDMER, 11th Cavalry.

Captain James S. Parker, Quartermaster, Assistant to Quartermaster, and Disbursing Officer.

Captain John H. Hughes, Commissary.

Captain WILLIAM L. KELLER, Medical Corps.

Captain Calvin D. Cowles, Jr., Medical Corps, Recruiting Officer.

1st Lieutenant George M. Edwards, Medical Corps, Recruiting Officer.

1st Lieutenant JAY L. BENEDICT, 14th Infantry, Assistant to Quartermaster.

1st Lieutenant Matthew H. Thomlinson, Infantry, Commissary, Exchange Officer.

1st Lieutenant S. Davis Boak, Dental Corps.

1st Lieutenant Alden Carpenter, Dental Corps.

Edward S. Holden, M. A., Sc.D., LL.D., Litt. D., Librarian. (1 July, 1902.) Edward S. Travers, Chaplain. (1 Dec., 1905.) Philip Egner, Teacher of Music. (17 June, 1909.)

Roy L. Marston, M. F., Forester. (1 April, 1905.)

CORPS ORGANIZATION.

For instruction in infantry drill regulations and in military police and discipline, the Corps of Cadets is organized into two battalions, under the Commandant of Cadets, assisted by two battalion commanders (army officers), each company being commanded by an officer of the army. The cadet officers and non-commissioned officers are selected from those cadets who have been most studious, soldierlike in the performance of their duties, and most exemplary in their general deportment. In general, the cadet captains and lieutenants are taken from the first class, the sergeants from the second class, and the corporals from the third class.

CLASSIFICATION OF CADETS.

The Cadets are arranged in four distinct classes, corresponding with the four years of study. The Cadets employed on the first year's course constitute the Fourth Class; those on the second year's course the Third Class; those on the third year's course the Second Class; and those on the fourth year's course the First Class.

The academic year commences on the 1st of July. On, or before, that date the result of the examination held in the preceding month is announced and Cadets are advanced from one class to another. At no other time is a Cadet advanced from one class to another, unless prevented by sickness, or authorized absence, from attending the aforesaid examination; in such a case a special examination is granted; but in no case is a Cadet advanced from one class to another without having satisfied the Academic Board of his proficiency in each branch of study pursued by his class.

Note.—Names marked thus * in the following pages are to be attached to the next Army Register, in conformity with a regulation for the government of the Military Academy, requiring the names of the most distinguished cadets, whose total proportional parts on the general merit roll of the class at the close of the term in the preceding June shall exceed a specified percent of the possible total. This percent is to be fixed by the Academic Board, and to be reported for this purpose at each Annual Examination. In determining distinguished cadets annually until the graduation of the class of 1915, 92% applies to the classes of 1915, 1916, 1917 and 1918. In 1915, the percentages for the then graduating class and all subsequent classes will be determined from the data then available. For the classes of 1912, 1913 and 1914 the first five cadets in the class are considered as distinguished. The practice of reporting distinguished cadets was instituted February 10, 1818, by Hon. John C. Calhoun, Secretary of War.

Cadets whose names are marked thus † were found deficient, and turned back, to join the next succeeding class.

Cadets whose names are marked thus I were found deficient, and discharged.

The weight for conduct, based upon the number of demerits received by a cadet each year, is

First class year	125
Second class year	100
Third class year	75
Fourth class year	50

The final count in conduct for the graduating merit roll is 200. The proportional parts are determined by taking two-thirds of the sum of the proportional parts for the first, second and third class years.

FIRST CLASS-96 MEMBERS-Graduated June 12, 1912.

WAR DEPARTMENT.

INFORMATION RELATIVE TO THE APPOINTMENT AND ADMISSION OF CADETS TO THE UNITED STATES MILITARY ACADEMY.

(Communications relating to matters connected with the Military Academy should be addressed to The Adjutant-General of the Army, Washington, D. C.)

APPOINTMENTS.

How Made.—Each Congressional District and Territory—the District of Columbia and also Porto Rico—is entitled to have one cadet at the Academy. Each State is also entitled to have two cadets from the State at large, and forty are allowed from the United States at large. The law, however, provides that for six years from July 1, 1910, whenever any cadet shall have finished three years of his course at the Academy his successor may be admitted. The appointment from a Congressional District is made upon the recommendation of the Representative in Congress from that gressional District is made upon the recommendation of the Representative in Congress from that District, and those from a State at large upon the recommendations of the Senators of the State. Similarly the appointment from a Territory is made upon the recommendation of the Delegate in Congress. The appointment from the District of Columbia is made on the recommendation of the Commissioners of the District. Each person appointed must be an actual resident of the State, District or Territory from which the appointment is made.

The appointments from the United States at large are made by the President of the United States upon his own selection. The cadet from Porto Rico, who must be a native of that island, is appointed by the President on the recommendation of the Resident Commissioner.

is appointed by the President on the recommendation of the Resident Commissioner. The Secretary of War is authorized to permit not exceeding four Filipinos, to be designated, one for each class, by the Philippine Commission, to receive instruction at the United States Military Academy at West Point; Provided, that the Filipinos undergoing instruction, shall receive the same pay, allowances, and emoluments as are authorized by law for cadets at the Military Academy appointed from the United States, to be paid out of the same appropriations: And provided further, That said Filipinos undergoing instruction on graduation shall be eligible only to commissions in the Philippine Scouts. And the provisions of section 1321, Revised Statutes, are modified in the case of the Filipinos undergoing instruction, so as to require them to engage to serve for eight years, unless sooner discharged, in the Philippine Scouts.

Date of Appointments.—Appointments are required by law to be made one year in advance of the date of admission, except in cases where, by reason of death or other cause, a vacancy occurs which cannot be provided for by such appointment in advance. These vacancies are filled in time for the next examination.

Candidates .- For each vacancy three candidates should be nominated, one of the candidates to be named as principal and the others as alternates about the principal are the highest proficient average will be entitled to admission in case of the failure of the principal

Each candidate will receive from the War Department a letter of appointment, and he must appear for examination at the time and place designated therein.*

Fitness for admission will be determined as prescribed in the Regulations United States Military Academy.

EXAMINATION AND ADMISSION OF CANDIDATES.

The following are extracts from the Regulations of the Military Academy relating to the examination of candidates for admission and will be strictly adhered to:

examination of candidates for admission and will be strictly adhered to:

On the last Tuesday in April of each year candidates selected for appointment (except the Filipino candidates) shall appear for mental and physical examination before boards of Army officers to be convened at such places as the War Department may designate. The Filipino candidates selected for appointment, unless otherwise notified by the War Department, shall appear for mental and physical examination on the second Tuesday in January of each year before a board of Army officers to be convened at such place in the Philippine Islands as the Commanding General of the Philippines Division may designate. Candidates who pass will be admitted to the Academy without further examination upon reporting in person to the Superintendent before 12 o'clock noon, on the 14th day of June following the examination, or 15th if the 14th falls on Sunday.

Each candidate before admission to the academy, must show by examination as prescribed in the preceding paragraph, that he is well versed in algebra, to include quadratic equations and progressions, plane geometry, English grammar, composition and literature, descriptive and physical geography, and general and United States history, as explained in the circulars of notification. No rejected candidate shall be re-examined, except upon recommendation of the Academic

^{*}The Board before which a candidate is directed to appear will be, without exception, the one convened at the place nearest or most convenient to his home, or to the school at which he is in regular attendance at the time of appointment.

69. Engagement to serve.-Immediately after reporting to the Superintendent for admission and before receiving their warrants of appointment candidates are required to sign in the presence of the Superintendent, or of some officer deputed by him, engagements for service in the following

I. _____, of the State (or Territory) of _____, aged _____ years, _____ months, do hereby engage (with the consent of my parent or guardian) that from the date of my admission as a cadet of the United States Military Academy I will serve in the Army of the United States for eight years unless sooner discharged by competent authority.

In the presence of ______.

In the case of the Filipino cadets the engagement shall be made to serve in the Philippine

In the case of the Filipino cases the engagement shall be made to serve in the Phlippine Scouts. (See sec. 1321, R. S.)

70. Oath of allegiance.—"Each cadet shall, previous to his admission to the academy, take and subscribe an each or affirmation in the following form:

"'I,———, do solemnly swear that I will support the Constitution of the United States and bear true allegiance to the National Government; that I will maintain and defend the sovereignty of the United States paramount to any and all allegiance, sovereignty, or fealty I may owe to any State, county, or country whatsoever, and that I will at all times obey the legal orders of my superior officers and the rules and articles governing the Armies of the United States." (See 1320, R. S.)

"Sworn to and subscribed at --- this -- day of -, nineteen hundred and ——, before me."

Qualifications.-No candidate shall be admitted who is under seventeen, or over twenty-two years of age, or less than five feet four inches in height at the age of seventeen, or five feet five inches in height at the age of eighteen and upward, or who is deformed, or afflicted with any disease or infirmity which would render him unfit for the military service, or who has, at the time of presenting him-self, any disorder of an infectious or immoral character. Candidates must be unmarried.

Each candidate must on reporting at West Point present a certificate showing successful vaccination within one year; or a certificate of two vaccinations, made at least a month apart, within three

Note. -Candidates are eligible for admission from the day they are seventeen until the day they become twenty-two years of age, on which latter day they are not eligible.

It is suggested to all candidates for admission to the Military Academy that, before leaving their places of residence for the place of examination, they should cause themselves to be thoroughly examined by a competent physician, and by a teacher or instructor in good standing. By such examinations any serious physical disqualification or deficiency in mental preparation would be revealed.

It should be understood that the informal examination herein recommended is solely for the

convenience and benefit of the candidate himself, and can in no manner affect the decision of the Academic and Medical Examining Boards.

CHARACTER OF EXAMINATIONS.

PHYSICAL EXAMINATION.

Upon the completion of the mental examination all candidates will be thoroughly examined physically by the medical officers of the board, under the following instructions prepared by the Surgeon General of the Army:

Hearing must be normal in both ears.

Vision, as determined by the official test types, must not fall below 20/40 in either eye, and not below 20/20 unless the defect is a simple refractive error not hyperopia, is not due to ocular disease, and is entirely corrected by proper glasses.

In the record of all examinations the acuity of vision without glasses, and also with glasses when the acuity is less than 20/20, will be given for each eye separately; in the latter case the correction will also be noted.

Hyperopia requiring any spherical correction, anisometropia, squint, or muscular insufficiency, if marked, are causes for rejection.

Color blindness, red, green, or violet, is cause for rejection.

The following are causes of disqualification if found to exist to such a degree as would immediately or at no very distant period impair the efficiency of the candidate:

1.—Feeble constitution; unsound health from whatever cause; indications of former disease, glandular

cause; indications of former disease, glandular swellings, or other symptoms of scrofula.

2.—Chronic cutaneous affections, especially of the scalp.

3.—Severe injuries of the bones of the head; convulsions.

4.—Impaired vision, from whatever cause; inflammatory affections of the cyclids; immobility or irregularity of the irris; fistula lachrymalis, &c., &c.

5.—Deafness; copious discharge from the ears.

6.—Loss of many teeth, or the teeth generally unsound.

7.—Impediment of speech.

8.—Want of due capacity of the chest, and any other indication of a liability to a pulmonic disease.

9.—Impaired or inadequate efficiency of one or both of the superior extremities on account of fractions.

tures, especially of the clavicle, contraction of a joint, deformity, &c.

10.—An unusual excurvature or incurvature of the

A varicose state of the veins of the scrotum or spermatic cord (when large), hydrocele, hemorrhoids, fistulas.

rhoids, fistulas.

-Impaired or inadequate efficiency of one or both
of the inferior extremities on account of varicose veius, fractures, malformation (flat feet, &c)
lameness, contraction, unequal length, bunions,
overlying or supernumerary toes, &c, &c.
Ulcers, or unsound cicatrices of ulcers likely to

break out afresh.

The requirements of the following tables of physical proportions are minimum for growing youths and are for the guidance of medical officers in connection with the other data of the examination, a consideration of all of which should determine the candidate's physical eligibility. Mere fulfillment of the requirements of the standard tables does not determine eligibility, while on the other hand no departure below the standard should be allowed unless upon the unanimous recommendation of the medical examining board for excellent reasons clearly stated in each case.

The physical requirements should be those of the age at the birthday nearest the time of the examination. Fractions greater than $\frac{1}{2}$ inch will be considered as an additional inch of height but candidates 17 years old must be at least 64 inches, and those 18 years and upward at least 65 inches in height.

Table of physical proportion for height, weight, and chest measurement.

Age,	Height, inches.	Weight, pounds.	Chest measure- ment— expiration, inches.	Chest mobility, inches.	Age.	Height, inches.	Weight, pounds.	Chest measure- ment— expiration, inches.	Chest mobility, inches.

MENTAL EXAMINATION.

Algebra.—Candidates will be required to pass a satisfactory examination in that portion of algebra which includes the following range of subjects: definitions and notation; the fundamental laws; the fundamental operations, viz.: addition, subtraction, multiplication and division; factoring; highest common factor; lowest common multiple; fractions, simple and complex; simple, or linear, equations with one unknown quantity; simultaneous simple, or linear, equations with two or more unknown quantities; involution, including the formation of the squares and cubes of polynomials; binomial theorem with positive integral exponents; evolution, including the extraction of the square and cube roots of polynomials and of numbers; theory of exponents; radicals, including reduction and fundamental operations, rationalization, equations involving radicals, operations with imaginary numbers, quadratic equations; equations of quadratic form; simultaneous quadratic equations; ratio and proportion; arithmetical and geometrical progressions. Candidates will be required to solve problems involving any of the principles or methods contained in the foregoing subjects.

The following questions were used at a recent examination:

Substitute y+3 for x in $x^4-x^3+2x^2-3$ and arrange the result in descending powers of y. On the eve of a battle one army had 5 men to every 6 men in the other. The first army lost 14000 men and the second 6000 men. The first army then had 2 men to every 3 men in the other. How many men were there originally in each army?

Solve
$$1.2x - \frac{.18x - .05}{.5} = .4x + 8.9.$$

Find the lowest common multiple of 1-x, x^2-1 , x-2, and x^2-4 .

Solve
$$\sqrt{x+9}=2\sqrt{x}-3$$
.

Solve
$$(2x-3)^2 = 8x$$
.

Expand $(m^{-\frac{3}{4}}-m^{\frac{4}{3}})^4$ by the Binominal Theorem.

Find all the values of a for which the roots of $ax^2 + 2(a+3)x + 16 = 0$ are equal.

Solve
$$\frac{x+y}{2} - \frac{x-y}{3} = 8$$
 and $\frac{x+y}{8} + \frac{x-y}{4} = 11$

Solve
$$x^2 - 4y^2 = 9$$
, $xy + 2y^2 = 3$

Solve $\frac{x+y}{2} - \frac{x-y}{3} = 8$ and $\frac{x+y}{8} + \frac{x-y}{4} = 11$.

Solve $x^2 - 4y^2 = 9$, $xy + 2y^2 = 3$.

A certain article of consumption is subject to a duty of \$1.50 per cwt. In consequence of a reduction in duty the consumption increases one half, but the revenue falls off one third. Find the duty per cwt. after the reduction.

A and B run a mile. First A gives B a start of 44 yards and beats him by 51 seconds; at the second heat A gives B a start of 1 minute and 15 seconds and is beaten by 88 yards. Find the time in which A and B can run a mile separately.

Sum to infinity the progression $3+2+\frac{1}{2}$ A servant agrees for certain wages the first month, on the understanding that they are to be raised a dollar every subsequent month until they reach \$60 a month. At the end of the first of the months for which he receives \$60 he finds that his wages during his time of service have averaged \$48 per month. How long has he served?

Plane Geometry.—Candidates will be required to give accurate definitions of the terms used in plane geometry, to demonstrate any proposition of plane geometry as given in the ordinary text-books and to solve simple geometrical problems either by a construction or by an application of algebra.

The following questions were used at a recent examination:

Define the following:

Rhombus.
 A mean proportional.
 Similar triangles.
 A segment of a circle.
 The apothem of a regular polygon.
 Theorem: The perpendicular is the shortest line between a point and a straight line.

Theorem: In the same circle or equal circles, the less of two chords is at the greater distance from the centre; conversely, the chord at the greater distance from the centre is the less.

Construction: Divide a given straight line internally in extreme and mean ratio.

Theorem: The areas of two triangles which have an angle of one equal to the angle of the other are to each other as the products of the sides including those angles.

Problem: Given a circle of unit diameter and the side of a regular inscribed polygon, find the side of a regular inscribed polygon of double the number of sides.

Theorem: The four bisectors of the four angles of a quadrilateral form a second quadrilateral,

the opposite angles of which are supplementary.

Theorem: If on the diameter of a circle two points be taken equally distant from the centre, the sum of the squares of the distances of any point of the circumference from these two points is

Problem: Find the locus of the point of intersection of the three altitudes of a triangle, given a fixed base, and constant angle at the vertex.

English Grammar.—Candidates must have a good knowledge of English grammar; they must be able to define the terms used therein; to define the parts of speech; to give inflections, including declension, conjugation and comparison; to give the corresponding masculine and feminine gender nouns; to give and apply the ordinary rules of syntax.

They must be able to parse correctly any ordinary sentence; giving the subject of each verb, the governing word of each objective case, the word for which each pronoun stands or to which it refers, the words between which each preposition shows the relation, precisely what each conjunction and each relative pronoun connects, what each adjective and adverb qualifies or limits, the construction

of each infinitive, and generally to show a good knowledge of the function of each word in the sentence.

They must be able to correct in sentences or extracts any ordinary grammatical errors.

It is not required that any particular text-book shall be followed; but the definitions, parsing, and corrections must be in accordance with good usage and common sense.

The examination may include questions similar to the following:

- The examination may include questions similar to the following:

 1. Define and give an example of each of the following.—Indefinite pronoun; objective or accusative case; preposition; demonstrative adjective; complex sentence; verbal noun; transitive verb; nominative absolute; relative pronoun; infinitive.

 2. Give the principal parts of the following verbs:—Swim: slay; take; drink; grow; think; beat; drive; choose.

 3. a. Write the plurals of the following words:—It; sheep; loaf; chimney; lady; dwarf.

 b. Of the following nouns, underline once those that are singular; twice those that are plural; thrice those that may be either:—Alms; date; cod; trout; heathen; gas.

 4. a. Write the masculine form of the following words:—Benefactress; witch; spinster; dam; mistress, niece.

 b. Of the following nouns underline once those that are ommon gender:—Servant; monk; freedom; baker; goose; actor; madness; executrix.

 5. a. Write the possessive case singular of the following words:—It; conscience; children; Miss Wilkins.

 b. Write the possessive case singular of the following words:—She; man-of-war; hero; deer.

 6. Give the comparison of the following adjectives or adverbs:—Recent; happy; much; lowly; ill.

 7. Correct all the grammatical errors in the following sentences:

 There ain't any doubt but what he done those kind of things.

 He must have came after we went home.

 Neither he or his sister had heard any one enter.

 The schools is different to-day to what they used to be.

He asked which of we boys had left their books laving on the table. He hadn't ought to act so foolish He asked which of we boys had left their books laying on the caole.

He don't think the youngest of the two boys is more than ten.

He can't office do me three dollars a dozen for these here apples.

If the hadn't have been for you and I, he should have had to have almost gone alone.

Parse the words in italics in the following sentence:—It requires but a very small glance of thought to perceive that, although laws made in one generation often continue in force through succeeding generations, let they continue to derive their force from the consent of the living.—Thomas Paine.

English Composition and English Literature.—Candidates will be required:

1. By the writing of short themes on subjects chosen by themselves within limits set by the examination paper, to prove (a) their ability to spell, capitalize, and punctuate, and (b) their

nastery of the elementary principles of composition, including paragraphing and sentence-structure.

2. To give evidence of intelligent acquaintance with three plays of Shakespeare: one comedy, one history, and one tragedy,—The Merchant of Venice, Henry V., and Macbeth being especially recommended.

3. To exhibit a fair knowledge of the history of English literature and of the names of the most prominent authors, and of the names of their principal works.

most prominent authors, and of the names of their principal works.

The general character and scope of the examination are indicated by the following specimen:

1. In a few paragraphs (about 25 words) tell the most important facts concerning the life and work of any one of the following authors:—Francis Bacon, Alexander Pope, Oliver Goldsmith, John Milton, Walter Scott, Thomas Macaulay, Percy Shelley, Robert Browning, Robert Louis Stevenson, Lord Byron, Thomas Carlyle, Charles Dickens.

2. Write a few paragraphs (altogether about 300 words) on one of the following subjects:

a. Name the most important writers of the Queen Anne period, and discuss the general characteristics of the literature of that period.

b. Discuss the importance of the novel in the Victorian period, giving the names of at least five prominent 3. a. Give the approximate dates of the beginning and ending of the Elizabethan age. Name four of the chief writers of that period.

b. Give the corresponding dates of the Restoration period. Name two of the chief writers.

writers of that period.

b. Give the corresponding dates of the Restoration period. Name two of the chief writers.

c. When and what was the Romantic movement in English literature! Name two of the most prominent poets of that movement.

d. Name two of the chief writers of the Concord school in American literature.

Write a composition of about 250 words on each of two topics closen by yourself from the following list:

The meaning of the apparitions which the writehes show to Macbeth.

The growth of Macbeth's evil ambitions.

The attitude of the Christians toward Shylock

Henry V.'s reasons for invading France.

A Successful Fishing Trip, or Successful Hunting Trip.

Asshown in Henry V., compare the spirit of the English army before Agincourt with that of the French army.

Geography.—Candidates will be required to pass a satisfactory examination, in descriptive geography and the elements of physical geography. A preponderance of weight is attached to a knowledge of the geography of the United States.

In descriptive geography of the United States, candidates should be thoroughly informed as to its general features and boundaries; adjacent oceans, seas, bays, gulfs, sounds, straits, and islands; lakes, the location and extent of mountain ranges; the sources, directions, and terminations of the important rivers, the names of their principal tributaries, and at what points, if any, these rivers break through rivers, the names of their principal tributaries, and at what points, if any, these rivers break through highlands on their way to the ocean; the water routes of communication from one part of the country to another; the location and termination of important railroad lines; the boundaries of the several States and Territories and their order along the coasts, frontiers and principal rivers; the locations and boundaries of the island possessions; and the names and locations of the capitals and other important cities of the several States, Territories and island possessions.

In short, the knowledge should be so complete that a clear mental picture of the whole of the United States is impressed on the mind of the candidate.

In descriptive geography of other countries, candidates should be familiar with the continental areas and grand divisions of water; the earth's surface; the large bodies of water which in part or wholly surround the grand divisions of the land; the capes, from what parts they project and into what waters, the principal peninsulas, location, and by what waters embraced; the parts connected by an isthmus; the principal islands, location and surrounding waters; the seas, gulfs, and bays, the coasts they indent, and the waters to which they are subordinate; the straits, the lands they separate, and the waters they connect; the locations of the principal lakes; the locations, boundaries, capitals and principal cities of the political divisions of the world.

In physical geography, candidates should be familiar with the relief of the earth's surface; the principal mountain systems, the river systems and watersheds; the coastal and lake platns: and the influence of climate, soil, mineral deposits and other physical features on the resources, industries commercial relations and development of a country and its people, especially of the United States.

The following questions were used at a recent examination:

- 1. Name the bodies of water surrounding Europe.

 2. Where is 1. Cape St. Vincent, 2. Cape Corrientes, 3. Cape Matapan, 4. Cape Lopes, 5. Cape Comorin.
 6. Cape York

 3. Name in order the political divisions of South America which border on the Pacific Ocean and the capital
 of each.

 4. Locate definitely the following islands: 1. Mauritius, 2. Tasmania, 3. Formosa, 4. New Zealand, 5.
 Madeira, 6. Falkland; to what country does each belong!

 5. Where are the guift of 1. Bothnia, 2. Guinea, 3. Paria, 4. Salonica, 5. Pechili!

- 6. What ands are separated and what waters connected by 1. Torres Strait, 2. Hudson Strait, 3. Strait
- of Malacca!

 7. Bound Italy; name its capital, largest river and principal mountain range.

 8. Locate definitely the following cities: 1. Vienna, 2. Nankin, 3. Cork, 4. Tunis, 5. Montevideo, 6. Batavia, 7. Sucz, 8. Pretoria.

 9. Name in order the waters traversed in sailing from Liverpool, England, to Hong Kong, China.

 10. A considerable portion of the boundary line of the United States is along what parallel!

 11. Locate definitely the following: 1. Flathead Lake, 2. Sabine Pass, 2. Black Hills, 4. Sebago Lake, 5. Cape Lookout, 6. Montauk Point, 7. Wichita Mountains, 8. Lingayen Bay.

 12. The meridian of Minneapolis passes through what states!

 13. Name the principal rivers that drain Pennsylvania: where do they rise, at what points do they leave the state and at what points, if any, do they break through highlands!

 14. Name all the waters traversed in going by the two commercial water routes from Duluth to the Atlantic Ocean.

- 15. Name the principal ranges of mountains crossed in going by rail from New York to San Francisco;
- state the rall route assumed to be traveled.

 15. Bound precisely the following States and Territories: 1. Montana, 2. Arizona, 3. Arkansas, 4. Wisconsin, 6. Pennsylvania, 6. Georgia. (In bounding, all contiguous states must be mentioned as well as rivers, mountain ranges, etc.)
- rivers, mountain ranges, etc.)

 17. Names the states west of the Mississippi River, drained wholly or in part by it or its tributaries, and give the capital of each.

 18. Locate accurately the following cities: 1. Austin, 2. Pensacola, 3. Asheville, 4. Winchester, 5. Allegheny, 6. Iloilo, 7. Oswego, 8. Pasadena, 9. Guthrie, 10. Detroit.

 19. Going by water from New Orleans, La., to Pittsburgh, Pa., what States would you pass on the left!

 20. How many large islands are there in the Hawaiian group! Which is the largest! Which is the most important!

 11. Going westward on the 35th parallel of north latitude, from near Newherne N.C. what States and large.

- 21. Going westward on the 35th parallel of north latitude, from near Newberne, N. C., what States and large
- 21. Going weakened of the soft particle of hotel ratified, from heat leavesting, it or, what states and large rivers would be crossed!

 22. Describe the chief mountain system of the eastern hemisphere, and state what Island chains of Asia abound in volcauces.

 23. What are the great river systems of South America! Where are the principal coastal plains!

 24. What are the qualifications of a good harbor! Name three of the best harbors on the Atlantic coast; one on the Pacific coast.

- 25. What has made the Middle Atlantic States the principal commercial section of the United States!

History.--Candidates must be thoroughly familiar with so much of the History of the United States, and of Ancient Greece and Rome as is contained in good high-school text-books on these subjects, and must have a good knowledge of the important facts in General Ancient History and in the History of Medieval Europe to the end of the fifteenth century.

In History of the United States, the examination will include questions concerning early discoveries and settlements; the forms of government in the colonies; the causes, leading events, and results of wars; important events in the political and economic history of the nation since its foundation; and the elementary principles of civil government with special reference to the federal congress, executive, and judiciary.

In Ancient History, the examination will include questions on important persons and events in

the legendary and authentic history of Greece and Rome, and on general important facts in the history of other ancient peoples, taking some account also of Greek art, of Greek and Roman literature, and especially of Roman government.

In History of Medieval Europe, the greater emphasis will be laid on the period from Charlemagne to the end of the Middle Ages, particularly on events connected with the political and social development of England.

Questions similar to the following in character and scope are likely to be asked:

- 1. What explorations or discoveries did each of the following named persons maket Give the date in each case. a. Narvaez. b. Coronado. c. Marquette. d. La Salle.

 2. Name three colonies that were founded for religious reasons and give the sect or denomination by which each was colonized.

 3. Who were the Pilgrimst Explain the difference between "Pilgrim" and "Puritan."

 4. When, and under what circumstances was Delaware separated from Pennsylvania!

 5. Give an account of Bacon's Rebellion.

 6. When and where did each of the following events occur: a. Meeting of the first Colonial Congress b. Burgoyne's surrender. c. Arnold's treason.

 7. Name some important results of each of the following battles of the Revolutionary War: a. Long Island. b. Trenton. c. Brandywine.

 8. Name four additions to the Territory of the United States since the Revolutionary War, and give the way each has been acquired. each has been acquired.
- each has been acquired.

 9. Bound the Territory of the United States at the close of the Revolutionary War.

 10. What was the "Massacre of Wyoming" 1

 11. When, where, and for what purpose, did the Constitutional Convention meet! What resulted from ite deliberations !

- deliberations!

 What was the "Whiskey Insurrection"!

 What was the "Whiskey Insurrection"!

 What were the "Allen and Sedition" laws! What was their effect!

 When and where was the last battle of the War of 1812 fought! Name the commanders on each side.

 What were the two principal political parties in 1869! Their candidates for the Presidency! Their leading doctrines on the slavery question! Parties. Candidates, Principles.

 With what foreign nations had the United States unfriendly relations during and at the close of the Civil War! Give the cause in each case.

 Name, with date, three important military events of 1885.

- What Vice-Presidents have become President! Name the predecessor in each case.
 Give an account of the "Virginius affair."
 In what war were the following battles fought! What were the opposing forcest Which side won!

 Ticonderoga b. Monterey.
 Saratoga.
 Stony Point.
 Spottzylvania.
 Lundy's Lane.

 By what authority could Lincoln proclaim the emancipation of the slaves! What states were immediately affected by the Emancipation Proclaimation! How was emancipation legal completed later!
 How may the Constitution of the United States be amended! Name two important constitutional amendments.
- 23. Name three offices in the cabinet of the President of the United States, and state the chief duties that belong
- 24. Explain as briefly as possible how a minority of actual votes might defeat a majority at a presidential
- 25. Define Electoral College; Spoils System; Primary; Supreme Court.

- 1. Into what general periods is the history of Egypt divided! What did Egypt contribute to Greek civilization
 2. Name one of the great kings of Assyria. Mention two important facts concerning the city of Nineveh.
 3. Mention the principal events of the reign of Darius I., and the most noteworthy feature of his government.
 Of what nation was he ruler!
 4. Mention three important facts in connection with the Phoenicians as traders and colonizers in the West.
 5. Who were: Agamemnon! Achilles! Hercules! Homer!
 6. Mention two ways in which the physical geography of Greece influenced the national life and character.
 7. What was the nature of the government of Athens after the expulsion of the Tyrants!
 8. Name four great battles of the Greece-Persian War, and give the date of any two of them.
 9. What States were the leaders in the great war between the States of Greece! What caused the war! What were its chief results!

- were its chief results!

- What States were the leaders in the great war between the States of Greece! What caused the war! What were its chief results!
 Outline the career of conquest of Alexander the Great. About when did he die! How would his undertaking have been more difficult if he had turned west instead of east!
 In Greek History what is the significance of the following names and phrases: Aristides! The Olympian Games! Solon! The Confederacy of Delos! Delphi! Sophocies! Praxiteles!
 Give the main points in the Greek colonial system. How did the Roman Continal system differ most conspicuously from the Greek?
 Give the tities of the principal officers of the Roman Republic and describe their functions.
 What were the Punic Wars! How many in number! Name two great generals on each side.
 Mention four causes that led to the fall of the Roman Republic. Discuss briefly the operation of two of them toward this result.
 Why did the Emperors persecute the Christians! State the attitude of Diocletian and Constantine respectively toward the Christians.
 For what is each of the following emperors most famous: Marcus Aurelius! Justinian! Nero!
 In Roman History what is the significance of: The Gracchi! Horace! The Comitia Curiata! Verres The Eattle of Chalons! A Pyrrhian Victory! Eneas! Alaric!
 What do you know of Joan of Arc!
 How did the Fendal System originate! Define Suzerain, Vassai, Serf.
 What do you know of Joan of Arc!
 What was The Renaissance! By what inventions and discoveries was it quickened! Through what channel was ancient science transmitted to modern times!
 Who was Simon de Montfort!
 Who was Simon de Montfort!
 What changes took place in the condition of the English peasantry in the fourteenth century! Due to what

- 24. What changes took place in the condition of the English peasantry in the fourteenth century! Due to what
- causes?

 25. Toward the close of the fifteenth century in England was the power of Parliament becoming greater or less than it had been previously? By what right was Henry IV. King of England! What was the earliest form of parliamentary assembly in English History?

ACADEMIC DUTIES.

The academic duties of cadets commence on the 1st day of September and continue until about the 5th of June. Examinations of the several classes are held in December and June. At the December examination cadets, who are found to be proficient in their studies, are arranged according to merit in each subject. At the June examination they are similarly arranged and they are also assigned general standing in the class as determined by their standings in the various subjects. When a subject of study is completed during a term an examination concluding the work in that subject is sometimes held. Cadets deficient in studies at any examination are discharged from the Academy unless for special reasons the Academic Board recommends otherwise. Cadets exceeding at any time the maximum number of demerits allowed for six months are immediately reported to the Academic Board as deficient in conduct and are discharged.

PHYSICAL EXAMINATION.

All cadets are examined physically in May of each year, and those found physically disqualified to continue with the course or, in case of the first class, for commission in the Army, are discharged.

VACATIONS AND LEAVES OF ABSENCE.

Academic duties are suspended from the completion of the June examinations until the end of August. During this period cadets live in camp and are engaged in military duties and exercises and in receiving practical instruction in military and other subjects. Academic duties are also suspended from December 24th, until January 2nd, except for those undergoing examination. All duties and exercises, as far as practicable, are suspended on New Year's Day, February 22nd, May 30th, July 4th, Thanksgiving Day and Christmas Day.

Cadets of the first, second and third classes not undergoing examination are allowed short leaves at Christmas, if their conduct during the preceding six months has been satisfactory. Excepting these short leaves for good conduct, cadets are allowed but one leave of absence during the four years' course. This leave is granted to those cadets who have successfully completed the third class course of study, and extends from the middle of June to the 28th of August.

PAY OF CADETS.

The pay of a cadet is \$600 per year and one ration per day, or commutation therefor at thirty cents per day. The total is \$709.50, to commence with his admission to the Academy. The actual and necessary traveling expenses of candidates from their homes to the Military Academy are credited to their accounts after their admission as cadets.

No cadet is permitted to receive money, or any other supplies, from his parents, or from any person whomsoever, without the sanction of the Superintendent. A most rigid observance of this regulation is urged upon all parents and guardians, as its violations would make distinctions between cadets which it is the especial desire to avoid; the pay of a cadet is sufficient, with proper economy,

for his support.

Candidates are authorized to bring with them the following articles: Hair brush, nail brush, tooth brush, shoe brush, comb, eight drawers (summer), twelve handkerchiefs (white), four night shirts or pajamas, eight socks (black cotton), six bath towels, six face towels, one trunk, eight undershirts

(summer), whisk broom, shaving mug, winter underwear, and athletic uniforms, shoes and goods.

Cadets are required to wear the prescribed uniform. All articles of their uniform are of a designated pattern, and are sold to cadets at West Point at regulated prices.

DEPOSIT PRIOR TO ADMISSION.

Immediately after admission candidates must be provided with an outfit of uniform, &c., the cost of which is about \$160. This sum, or at least \$100 thereof, must be deposited with the Treasurer of the Academy before the candidate is admitted. It is best for the candidate to take with him no more money than he needs for traveling expenses and for his parents to send the required deposit by draft, payable to the Treasurer, U. S. Military Academy. The deposit is credited at once to the cadet's account. Upon graduation a cadet who has exercised proper economy will have sufficient money to his credit with the Treasurer of the Academy to purchase his uniform and equipment as

PROMOTION AFTER GRADUATION.

The attention of applicants and candidates is called to the following provisions of an Act of Congress approved May 17, 1886, to regulate the promotion of graduates of the United States Military

"That when any cadet of the United States Military Academy has gone through all its classes and received a regular diploma from the Academic Staff, he may be promoted and commissioned as a second lieutenant in any arm or corps of the Army in which there may be a vacancy and the duties of which he may have been judged competent to perform; and in case there shall not at the time be a vacancy in such arm or corps, he may at the discretion of the President, be promoted and commissioned in it as an additional second lieutenant, with the usual pay and allowances of a second lieutenant. tenant, until a vacancy shall happen.

PROGRAM OF THE COURSE OF INSTRUCTION.

Immediately following is shown the program of the course of instruction adopted by the academic board May 2, 1912, and approved by the War Department May 4, 1912. This program takes effect September 1, 1912.

The Academic Calendar.

First term, Sept. 1-Dec. 23, embraces 95 a. m. and 80 p. m. periods. Second term, Jan. 2-June 4, embraces 130 a. m. and 109 p. m. periods. Semi-annual examination, Dec. 26-31. Annual examination, June 5-12. a. m. periods extend from 7:55 a. m. to 12:30 p. m. except Sundays.

p. m. periods extend from 1:45 to 3:45, except Saturdays and Sundays.

Hours of Attendance.

riours of Attendance.

7:55 to 9:20 a.m.; 9:20 to 10:45 a.m.; 10:30 to 11:30 a.m.; 11:30 a.m. to 12:30 p.m.

Dinner assembly 12:40 p.m.

1:45 to 2:45 p.m.; 2:45 to 3:45 p.m.

In Philosophy and Chemistry the following arrangement will govern :—Philosophy, 7:55 to 9:20; 10:30 to 11:55. Chemistry, 7:55 to 9:00; 10:30 to 11:35.

For laboratory work Second Class sections attending at 7:55 may be held until 9:55, and sections attending at 10:30 may be held to 12:30.

Division into A and B sections will be observed in First Second and Third Classes. Division into A and B sections will be observed in First, Second, and Third Classes.

Intermediate examinations shall in general be held in the regular recitation periods allotted to the department concerned.

DEPARTMENT OF TACTICS.

ALL CLASSES.

New cadets, upon reporting for duty, are given Infantry recruit instruction, with gymnastic and calisthenic exercises, until they join the battalion.

Practical instruction is given during the summer encampment, and from September 1st to November 1st, and from March 15th to June 1st, in infantry, artillery and cavalry drill regulations, in target practice with the rifle, revolver, mountain gun and field gun, and in Military Engineering.

During the summer encampment, eadets of the third and fourth classes are also taught swimming and dancing, and those of the first class, the service of seacoast artillery and submarine defense at fortifications; infantry classes participate in exercises in minor tactics, practice marches, problems and practical field work, in which the employment of all arms is exemplified.

Practical instruction in fencing and gymnastic exercises and in boxing and wrestling is given to the fourth class from October 1st to June 1st, and to the other classes from November 1st to March 15th.

Instruction in riding is given to the first class during the encampment and from September 1st to June 1st, excepting the month of February; to the second and third classes, from November 1st to March 15th and also to the third class during the summer encampment, Instruction with English pad saddles is given to the first class, and in polo to the first and second classes.

During the winter months map problems for the purpose of instruction in making dispositons of small forces and in in writing orders; also lectures upon the methods pursued in company, post, and staff administration as required by Army Regulations, upon uniforms and equipments, and upon etiquette and customs of the service are given cadets of the first

DEPARTMENT OF CIVIL AND MILITARY ENGINEERING.

FIRST CLASS.

The course in civil and military engineering and the art of war is confined to the first class year.

The course in civil engineering begins September 1st and is completed during the first term, which closes with the Christmas holidays. It comprises brief treatises on the mechanics of civil engineering, framed and masonry structures, the materials of engineering, water

The course in military engineering and the art of war begins on January 2nd and closes on the 3rd of June. Military engineering embraces the study of field and permanent fortifications and siege works. The art of war embraces the study of the organization of armies, employment of the different arms in combination, logistics and strategy. To familiarize the students with its principles, lectures are delivered on military subjects and the principal operations of about twenty selected campaigns are studied. During this course the students are taken to the battlefield of Gettysburg to familiarize them with the effects of topography on the employment of troops in the field.

TEXT BOOKS.

Civil Engineering. Fiebeger. Field Fortifications. Fiebeger. Permanent Fortifications. Fiebeger. Elements of Strategy. Fiebeger. Army Organization. Fiebeger.

Siege Works. Mercur. Organization and Tactics. Field Service Regulations. II. S. Campaign of Gettysburg. Fiebeger.

BOOKS OF REFERENCE.

Campaigns and Battles. Department. Cambria Steel. Story of Civil War. Ropes.

The department has a well-selected reference library on civil engineering, military engineering and the art of war.

DEPARTMENT OF NATURAL AND EXPERIMENTAL PHILOSOPHY.

SECOND CLASS.

The course in natural and experimental philosophy begins with and continues throughout the third academic year. Mechanics is studied during the first term. The text used is Gordon's "Mechanics." Many of the principles are illustrated by apparatus in the lecture and section rooms, and the students are required to repeat and explain these experiments. The course aims to be as complete as possible with the limitation that it can be properly covered in a term of about 90 to 100 days by students having a proficient knowledge of the calculus; the treatment is sufficiently mathematical to furnish a confident basis for advanced work in the technical staff after graduation.

During the second term about 120 lessons are allotted to this department. The first half of this time is devoted to the subjects of sound and light. The authorized textbook is Gordon's "Sound and Light."

Astronomy is studied in the remainder of the second term. The texts used are Young's "General Astronomy" and Michie and Harlow's "Practical Astronomy." The principal alm of this course, in addition to its important value in educational development, is to furnish an ample basis for the establishment of stations in explorations and surveys.

The class attends daily throughout the year, except eight days, during which half the class attends daily.

TEXT-BOOKS:

Sound and Light. Gordon.

General Astronomy. Young.

Mechanics. Gordon.

Practical Astronomy. Michie and Harlow.

Numerous standard works on the general subjects covered by the course are available for

DEPARTMENT OF MATHEMATICS.

THIRD AND FOURTH CLASSES.

The course in mathematics begins with the fourth class year and continues through the third class year.

In the fourth class year, algebra is completed in alternation; first with geometry, then with trigonometry. Plane analytical geometry is begun.

In the third class year, plane and solid analytical geometry and descriptive geometry are completed in alternation. The calculus and least squares finish the course.

The course in algebra covers the entire subject as generally taught in colleges, but the student is expected to have already mastered elementary algebra to include the progressions and the solution of the quadratic equation. The course in elementary geometry includes the books that relate to the plane and those that relate to space, but the student is expected to have mastered the former. Plane and spherical trigonometry includes the complete solution of the plane and spherical triangles. The course in analytical geometry includes the discussion of the general equation of the second degree in the plane and the particular forms of the equation of the second degree in space.

Descriptive geometry includes, in orthographic projections, the right line, the plane, ruled surfaces and surfaces of revolution, tangent planes and intersections of surfaces. It also covers shades and shadows, perspective, isometric projections and, for the upper part of the class, spherical projections.

The course in differential and integral calculus covers the ground of the usual college text-book, including briefly the subject of ordinary differential equations.

TEXT BOOKS.

Elements of Geometry. Phillips and Fisher. Advanced Course in Algebra. Wells. Quadratics and Beyond. Fisher and Schwatt. Elements of Plane and Spherical Trigonometry. Crockett.

try. Crockett.
Method of Least Squares. Johnson.
Differential and Integral Calculus. Granville.
Integral Calculus. D. A. Murray.

Logarithmic Tables. Newcomb. [Smith. Conic Sections, Coordinate Geometry. C. Elements of Analytical Geometry (Solid). Smith and Gale. Coordinate Geometry. Fine and Thompson.

Coordinate Geometry. Fine and Thompse Descriptive Geometry. Church. Linear Perspective. Pillsbury. Theory of Equations. D. A. Murray.

DEPARTMENT OF CHEMISTRY, MINERALOGY AND GEOLOGY.

SECOND CLASS.

This department embraces two branches of physics not included in its title, namely heat and electricity.

The course begins September 1 of the third academic year and extends throughout this year; exercises, recitations, laboratory work or lectures take place on all week-days.

Commencing September 1, general chemistry, alternating with lessons in heat, occupy the time until the close of the term in December, recitations or other exercises being had daily.

During this term all members of the class whose progress, as shown by their recitations, warrants it, are given laboratory practice in chemistry. This practice begins with chemical manipulations and proceeds in the usual general order of elementary laboratory work. The laboratory exercises are one hour and fifty minutes long. It is generally possible to give all parts of the class some laboratory experience; the amount of this work, however, varies with the aptitude of the student from a few hours to fifty-five or sixty hours.

This term closes with an examination upon the essential parts of the entire course, which all cadets who have not shown a required proficiency in daily work must take.

In chemistry the course is a descriptive general one, based upon a concise statement of the more essential principles of chemistry, and includes that class of information deemed most important to non-specialists, together with an accurate and logical treatment of many useful applications of chemistry.

Beginning January 2 the daily exercises alternate between geology, mineralogy and electricity. This term also closes with an examination, covering the essential parts of the subjects studied during the term, which all cadets who have not shown a required proficiency in daily work must take.

The course in heat is short, but it is a comprehensive elementary course intended to embrace what is most applicable to subsequent work at the Academy and what is most useful in general education.

The course in geology is a brief but scientific presentation of the essential elements of this branch of science.

The mineralogy is an eminently practical course consisting of the descriptive study and the practical determination of the important minerals. The lithological and palæontological part of geology is accompanied in study by the continued practical examination of the objects described.

The course in electricity is a brief exposition of the leading electrical phenomena and their relations to each other. It includes a study of the general principles of the subject and of the typical machines, generators, motors and transformers, together with the more important uses of electricity. The laboratory exercises give experience with a number of the machines and in the use of a great variety of apparatus employed in the numerous forms of electric measurements. In this term the laboratory work is a part of the electrical course and all cadets enter the laboratory. All laboratory work is performed under the immediate supervision of an instructor.

TEXT BOOKS.

Elementary Lessons in Heat. Tillman.

Descriptive General Chemistry. Tillman.

Practical Chemistry. (Laboratory Guide.) Clowes.

Elements of Geology. Le Conte.

Important Minerals and Rocks. Tillman.

Elements of Electricity. Robinson.

During all terms standard works on the respective subjects are available for reference both to cadets and instructors.

DEPARTMENT OF DRAWING.

THIRD AND SECOND CLASSES

The course in drawing is carried on through the third class and second class years.

It begins in the first year course with elementary freehand work from blocks and objects for the training of the eye and hand, and is followed by instruction in the nature and use of drawing instruments, papers and material, construction of practical problems in plane geometry used in constructive and mechanical drawing. This is followed by the construction of problems in descriptive geometry covering the theoretical course in mathematics; the lower part of the class being confined to the practical problems most useful in mechanical and building construction drawing. A short course of lettering and handling of flat washes precedes the general study of topography and map making in which theoretical instruction is coupled with the execution of conventional signs, platting, the construction and lettering of a finished map, and practice in the field in the various elements of military topographical field sketching. This completes the first year's course.

Text-book pamphlets:

Drawing Instruments and Papers. The use of Drawing Instruments, and Geometrical Problems. Elementary Exercises in Water-color Washes. Military Topography—Map Reading and Map Making. Book of Letters and Lettering.

Descriptive Geometry Problems. The work of the second year begins with freehand military landscape sketching in the field; and is followed by memory drawing for the training of the formal memory, and freehand mechanical, and projective drawing. Practical projective geometry, including axonometric projection, is then resumed preparatory of the plan, section, and elevation drawing of a building construction project. In this the student learns the structural elements of a house and of building construction methods and design, and the ability to read working drawings. Following this a mechanical drawing of the plan, section, and elevation of a portion of a steam engine is constructed, in connection with instruction in the structure and function of the parts of a steam engine. Finally the class is separated into groups corresponding to the corps in the Army in which the standing of cadets indicates that they will graduate, and subjects of engineering, ordnance, and service building construction drawing are assigned in accordance therewith. The second class course inncludes several lectures on the art and architecture of the world.

Text-book pamphlets: Framing. The Steam Engine. Notes on Building Construction.

DEPARTMENT OF MODERN LANGUAGES.

THIRD, SECOND, AND FIRST CLASSES.

The course in modern languages comprises instruction in French and in Spanish.

FRENCH.

THIRD CLASS.

Instruction is given in reading, in composition, and in conversation. The course opens September 1, and continues until June 4, some 219 lessons in all.

SPANISH.

SECOND AND FIRST CLASSES.

Instruction is given in reading, in composition, and in conversation, to which special attention is paid. The course opens October 4, of the second class year and closes June 4 of the first class year, 176 lessons all told.

The present text-books are:

THIRD CLASS.

French: — Martin's French Verbs.

Elementary French. Addrich and Foster.

DePeiffer's French Pronunciation. Bercy's La Langue Française.

Introductory French Composition, François. Guerlac's Standard French Authors.

Advanced French Prose Composition, François. Potter's Dix Contes Modernes. Cameron's Tales of France.

Marchand's French Idioms. Revue Militaire des Armées Étrangères. Labiche and Martin's Voyage de M. Perrichon.

Dike's Scientific French Reader.

Molière's L'Avare.

SECOND AND FIRST CLASSES.

Spanish: - Spanish Verb and Spanish Pronunciation. Traub, 2d Edition.

Spanish Grammar. Olmstead & Gordon. Crawford's Spanish Composition. Cuentos Selectos by Enrique Pérez Escrich. Cuentos Selectos by Antonio de Trueba. Hojas Selectos (Spanish Magazine). Hill's Spanish Tales for Beginners. "A B C" Spanish Daily Newspaper.

BOOKS OF REFERENCE.

French: — French Pronouncing Dictionary. Spiers and Surenne.

Military Technical Dictionary. Willcox.

Spanish:-New Spanish-English and English-Spanish Dictionary, by Cuyás. Appleton.

DEPARTMENT OF LAW.

FIRST CLASS.

The course in law covers the following subjects:

1. The elements of law.

3. International law.

2. Constitutional law.

4. Military law.

To illustrate principles in the text-books cadets are required to recite on numerous cases from the reports. Lectures are also given upon the subjects taught, so far as the limits of time allotted to this course permit.

TEXT BOOKS.

The Elements of Law. Davis, G. B. Constitutional Law. Davis, E. G.

International Law. Davis, G. B. Military Law. Dudley.

BOOKS OF REFERENCE.

There is a reference library in the department of about 2,500 volumes, accessible to the cadets.

DEPARTMENT OF PRACTICAL MILITARY ENGINEERING, MILITARY SIGNALING AND TELEGRAPHY.

FOURTH, THIRD, SECOND AND FIRST CLASSES.

Fourth Class.—This class is given an elementary course in the theory and practice of surveying instruction in this subject alternating with mathematics during the last 66 recitation days of the academic year. From May 1 to June 4 the entire morning is devoted to practical instruction in the use and adjustment of surveying instruments and in surveying methods. During this period cadets apply in the field what has been taught them in their theoretical study of the subject just preceding. The course includes instruction in the use of chains and tapes, in profile and differential leveling and earthwork computations, in the use of compass, plane table and transit with special reference to the employment of these instruments in military topographic surveying.

Third Class.—During the period of the summer encampment the cadets of this class receive instruction in knots and lashings, in rowing, in the construction of floating bridges with wooden pontons, canvas pontons and rafts, and in military camp expedients.

Simple exercises in topographic and hydrographic surveying are also given.

Second Class.—The work of the 2d Class in this department is confined to military signaling. During the fall drill period instruction is given in visual signaling by means of flags, heliographs and acetylene lanterns, short messages, both plain and cypher, being sent and received. In the spring period the instruction covers the field methods of electrical communication including the installation and operation of field-wire and buzzer lines and wireless telegraph equipment.

First Class.—During the summer encampment, cadets of the 1st Class are instructed in building pile, trestle and ponton bridges, in improvising methods of crossing streams, in making road sketches both mounted and dismounted, and in combined position sketching. During the fall course this class is given instruction in the construction and operation of appliances used in field engineering, in the erection of spar and trestle bridges, and in the use of explosives in military demolitions. The spring course is devoted to field fortification work, including the construction of trenches, revetments, obstacles, bomb proofs and gunpits; posting and distribution of working parties in the construction of saps, trenches, parallels, and approaches; and tracing and profiling siege works.

TEXT BOOK.

Theory and Practice of Surveying (17th Edition). Johnson.

BOOKS OF REFERENCE.

Plane Surveying. John Clayton Tracy, C. E.
The Engineer Field Manual. Office of the Chief of Engineers, U. S. A.
Manual of Visual Signaling. U. S. Signal Corps.

DEPARTMENT OF ORDNANCE AND GUNNERY.

FIRST CLASS.

The subject of ordnance and gunnery is studied by the cadets of the first class throughout the academic year.

The course of instruction covers the principles involved in the construction and use of war material. It is broadly divided into three parts: the theoretical, the descriptive, and the practical. The theoretical part includes the study of the action of explosives, the study of interior and exterior ballistics, the theories of gun and carriage construction, and the principles of gunnery. The theoretical part of the course is not the same for all cadets, those showing the necessary proficiency taking a special course in the time devoted by the remainder of the class to review work.

The descriptive part of the course covers the processes of manufacture of powders, guns, projectiles and armor; and describes the small arms, cannon, machine and rapid-fire guns in use in the United States service, with the carriages, ammunition and accessory appliances required for their service. The department is well supplied with models, which are used in conjunction with the text.

The practical part of the course covers the operation of machines and appliances used in the fabrication of modern ordnance, the latter work being in effect a short but valuable course in manual training.

In connection with the course, visits are made to Watervliet Arsenal, where the processes of gun construction are observed, and to the Ordnance Proving Ground at Sandy Hook, where actual firings from the several classes of guns are observed, including usually one or more shots against armor, and where the latest developments in war material are seen.

TEXT BOOKS.

BOOKS OF REFERENCE.

Ordnance and Gunnery. Lissak. Exterior Ballistics. O'Hern. Stresses in Wire-Wrapped Guns and in Gun Carriages. Ruggles. Ballistic Tables. Ingalls. Mathematical Tables. Newcomb. Publications of Ordnance Department. U. S. Army.

DEPARTMENT OF MILITARY HYGIENE.

THIRD CLASS.

The course in military hygiene begins September first. It consists of 6 lectures and 13 recitations.

The course covers the essential points in the care of troops, particular attention being paid to the following:

Personal hygiene with special reference to the soldier and his environment; the hygiene and sanitation of military commands in garrison and in the field; the causes and prevention of infectious diseases and control of epidemics. The nature of alcoholic drinks and narcotics and their effects upon the human system are also taught.

During the summer camp, lectures with exercises are given to the first class, on the use of the first aid packet and the treatment of medical and surgical emergencies. On practice marches, at the end of each day, the medical officer on duty with the Corps discusses practical matters, such as the advantages and disadvantages of the camp site, camp cooking and the water supply, from the view point of the military sanitarian.

TEXT BOOKS.

The Elements of Military Hygiene. Ashburn. Alcoholic Drinks and Narcotics. Keefer.

REFERENCE BOOKS.

Military Hygiene. Havard. Theory and Practice of Military Hygiene. Munson. Military Hygiene. Woodhull. Practical Hygiene. Harrington.

DEPARTMENT OF ENGLISH AND HISTORY.

FOURTH CLASS.

The course in English and history begins with the fourth class in September and continues throughout the academic year, the whole class attending daily except Saturday (Saturdays also for lectures in December, January, and February.) The class is divided into two parts, which alternate in reciting English and history.

In English, the course of instruction is planned to inculate the essential principles of rhetoric, both by study of the text-book and by frequent practice in the various forms of composition (including practice in personal and official correspondence), to create an intelligent appreciation of the best in English literature by the study of selected literary masterpieces, and to impart a knowledge of the important facts in the history of English literature and language by the study of a text-book and by lectures.

In history, the course of instruction is planned to acquaint the student with the political, social, and economic history from the end of the Middle Ages to the present day, to make him familiar with the fundamental principles of civil government, with special reference to the United States, and to give him knowledge of various typical forms of modern national and municipal convergence.

THE LIBRARY.

Cadets and officers have free access to the library, which comprises some 87,000 books, maps and manuscripts. The collection contains substantially all standard books on the subjects taught in the Academy and is especially complete in military subjects. Its card catalogues (about 313,000 cards) are arranged with the special object of saving the time of cadets. The library is open on week-days from 8 A. M. to 9:30 P. M.; on Sundays and holidays from 2 to 6 P. M.
